Fax: 27-11 762-6224
Cell: 082 410 3386
E-Mail: stan@techroq.co.za

SERVICE EXCHANGE PROGRAM

1. The rotor body and hub remains the property of Techroq.
2. When a new rotor is supplied to a new customer the customer only pays for full set of cladding, thereafter on the same rotor the customer only pays for the wear parts that needs to be replaced.
3. Where a new customer requires a second rotor to prevent downtime all the above in paragraph 2 applies.
4. When a rotor body is damaged due to the negligence from the client a repair fee will be charged.
5. When a rotor returns for repairs a detailed quote will be sent from Techroq to the client.
On acceptance of quote the rotor will be repaired, balanced and returned to site at no additional costs.
6. For the above services we recommend that the client only uses Techroq's wear parts.
7. If any rotor body or hub are lost or stolen when in the care of the client Techroq will invoice the client the replacement value off a new bare rotor.
8. The client can terminate the service at any time when the account is settled in full and all rotor bodies are returned to Techroq's offices.
